SUBJECT: Transfer of CACCOLA 1 School to the States

1. In view of present plans for moving the CACCOLA 1 school to the United States in the late summer or fall, arrangements must be made for the transfer of CACCOLA 1 instructor and agent personnel there. Consultation has been held with ☐ ☐ MOB immigration expert, who has suggested various legal possibilities. The following is a list of those CACCOLA 1 personnel who will be moving with the school and a suggested course of action for each.

a. CAPABLE 14's physical condition precludes the use of any entrance arrangement with the exception of Public Law 110 under which physical condition is not a factor. There are no other obstacles.

b. CAPABLE 42, CACCOLAS 3, 13, 8 and 9 all should qualify under Part A-1, Section 203 of Public Law 414 which provides for the entrance of certain specialists for the good of the United States. Such permission is applied for through the Attorney General who controls the first 50 percent of the quota. Under this law, residence is allowed for an indefinite period depending on the length of time necessary to do the job.

c. Although assessment of new agent candidates for the third CACCOLA cycle has not yet taken place, it is estimated that as many as twelve new people will be available to us for transfer along with the school. ☐ ☐ mentioned certain special arrangements between Headquarters and the ODACID under which agent trainees could be brought to the U. S. clandestinely and leave in the same manner when ready for dispatch. Such an arrangement has obvious advantages in the case of the trainees.

2. Headquarters comments are requested.
